PROFESSIONAL TITTLE

Passionate Software Developer with hands-on experience in Oracle SQL and PL/SQL. Skilled in building backend systems and developing REST APIs using ORDS. Strong understanding of database design, query optimization, and business logic implementation. Eager to contribute technical skills and grow in a challenging development environment.

TECHNICAL SKILLS

DATABASE & BACKEND

- Oracle SQL
- PL/SQL (Procedures, Functions, Packages, Triggers)
- Query Optimization & Indexing
- CTE & Complex Queries
- REST API Development using ORDS
- JSON Handling & CRUD Operations

PROGRAMMING

- Python
- HTML
- CSS

TOOLS

- Oracle SQL Developer
- SQL*PLUS
- Postman
- Visual Studio Code
- Git & GitHub

PROJECT EXPERIENCE

ORACLE BACKEND DEVELOPER

LMS System

Developed a Learning Management System backend using Oracle Database. Designed tables and implemented business logic using PL/SQL procedures, functions, and packages. Built REST APIs using ORDS and integrated frontend with backend services. Tested APIs using Postman.

- Implemented authentication and role-based access
- Developed course and enrollment modules
- Optimized SQL queries for better performance

MACHINE LEARNING DEVELOPER

Wine Quality Prediction Tarunk

Developed a machine learning model to predict wine quality using Python. Performed data preprocessing and feature selection. Implemented classification algorithms such as Logistic Regression and SVM, and evaluated model performance.

- Applied data cleaning and preprocessing techniques
- Trained and tested Logistic Regression and SVM models
- Evaluated accuracy and model performance metrics
- Improved prediction results through parameter tuning

EDUCATION

BCA
Berhampur University
2022 - 2022
Grade :- 8.4

12TH SCIENCE
Aaryan Gurukul , Berhampur
2020 - 2022
percentage :- 79%

10TH
Govt high school, Nuapada
2019 - 2020
percentage :- 70%
